

## PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Harvalas Property Management  
DOCKET NO.: 03-23891.001-R-1  
PARCEL NO.: 14-20-221-036-0000

The parties of record before the Property Tax Appeal Board are Harvalas Property Management, the appellant, by attorney Brian P. Liston with the law firm of Liston & Lafakis, P.C. in Chicago, and the Cook County Board of Review.

The subject property consists of a 95-year-old, two-story, three-unit, multi-family dwelling of masonry construction containing 4,293 square feet of living area with three full bathrooms, a full-unfinished basement and a two-car attached garage. The subject is located in Lake View Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of three-story, three or six unit, multi-family dwellings of frame or masonry construction located on the same street and block as the subject. The improvements range in size from 4,491 to 9,198 square feet of living area and range in age from 87 to 103 years. The comparables contain three or six full bathrooms and a full-unfinished basement. One comparable contains a two-car detached garage. The improvement assessments range from \$10.57 to \$11.99 per square foot of living area. Based on the evidence submitted,

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,331  
IMPR.: \$ 62,340  
TOTAL: \$ 71,671

Subject only to the State multiplier as applicable.

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$71,671. The subject's improvement assessment is \$62,340 or \$14.52 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 95 or 106-year-old, two or three-unit, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,336 to 3,474 square feet of living area. The comparables contain two or three full bathrooms, a full-finished or unfinished basement and a two-car detached garage. The improvement assessments range from \$15.41 to \$17.79 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

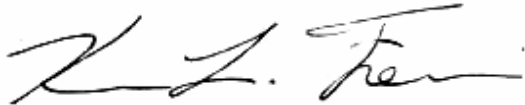

Both parties submitted a total of six properties somewhat similar to the subject but with many variations in living area, number of units, design and/or type of construction. These six properties have improvement assessments ranging from \$10.57 to \$17.79 per square foot of living area. The subject's per square foot improvement assessment of \$14.52 falls within the range established by these properties. The Board finds of the six comparables offered by the parties, five vary substantially from the subject in living area, one varies in construction, three vary in design and three vary in number of units. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
